The Up and Down semi-automatic Terrace Wind Screen provides protection on windy days. It can be lowered on calm days for more air movement.

The Oasis All Seasons model is the perfect adjustable and convertible weather protection solution for every season.

With the Oasis All Seasons convertible modules you can easily change between the up protected Spring and fall mode to an all open warm summer mode by removing the top glass leaving the base wall.

Additional modules include a menu holder, doors, and panorama modules with rounded corners.

The Oasis stationary models have simple and smooth parallelepiped designs which can be adapted to any furniture set up.

The Oasis comes in many different configurations and designs to fit your needs

Screens can be raised or lowered easily to accommodate any climate.

The Up & Down model is made up of two sections, one stationary and one mobile. A simple key is used to lock and release the module. To raise, release window with the key and the spring loaded module will slowly rise on its own.

The Up and Down model of our glass window dividers can be customized to match your color scheme or even display your logo! The base aluminum colors are White and Iron Grey colors. Virtually any color and design graphic motifs can be added to the glass to showcase your restaurant's unique style.

Include a Nizza Model planter to create an elegant and welcoming atmosphere
