myLink RTS Smartphone & Tablet interface

The TaHoma Switch control up to 60 Somfy products

By motorizing your Sunair® screen you can lower and retract your screen effortlessly. In fact, motorizing your screen will increase your usage of the product and overall satisfaction. The motors also do not require any maintenance.

A standard wall switch or RTS remote control is available with the optional SOMFY Plug-In motors, eliminating the need for an electrician.

Add a Somfy myLink or TaHoma to control right from your smart phone or tablet interface.

Relax and enjoy your outdoor space free from sun glare, moderate inclement weather, and without those pesky bugs. The SC4500 / SC4600 is the perfect rolling retractable screen for protecting you and your family, or your restaurant patrons. It is ideal for protection on porches, Pergolas, verandas, garage doors, and lanai's. Simply roll down the screen with the manual crank or motor and the zipper system will do the rest. This specially engineered zipper system holds the fabric within the tracks allowing for opening to be more protected when the fabric is lowered. Sunair offers only the highest quality mesh, fiberglass, and vinyl PVC fabrics from the best-known brand names in the industry. Choose the fabric that best fits your needs from our variety of available fabrics.
