

SC1000 & SC1500 MASTERSHADE®

Exterior retractable solar screen systems

The SC1000 & SC1500 Mastershade® are two simple economical exterior cabled vertical rolling sun screen systems, which can be rolled up and down as needed. The fabric hem bar runs on cable guides by means of gravity. When the shade is retracted the fabric is stored in the built-in protective box on SC1500 unit (SC1000 unit is an open roller). A galvanized steel painted weighted bar in the fabric fold / pocket keeps the fabric taut.

Screen Style	Type	Standard Frame Colors	Standard Widths	Standard heights	Recommend Application	Recommend Fabrics to Use
	SC1000 & 1500 Vertical rolling Screen	White, Mocha	3' through 12' Wide	3' through 9' High	Residential Commercial Windows, Porches	Recscreen 5000P Only Stock colors

OPERATION:

The Mastershade® SC1000 & 1500 is easy to operate with a standard 8:1 ratio exterior gear / crank kit. Motorized units are available utilizing a SIMU 525 series “radio” remote motor with a 6’ cord & remote. **Note:** Somfy or CMO manual override motors are not available. Other motor brands may be offered in lieu of the Simu motor at same cost.

ROLLER:

The SC1000 is an open roller & SC1500 is a “Semi” cassette open at the bottom.

CABLES:

Screen includes cable guides with Galvanized pocket hem bar / weight bar.

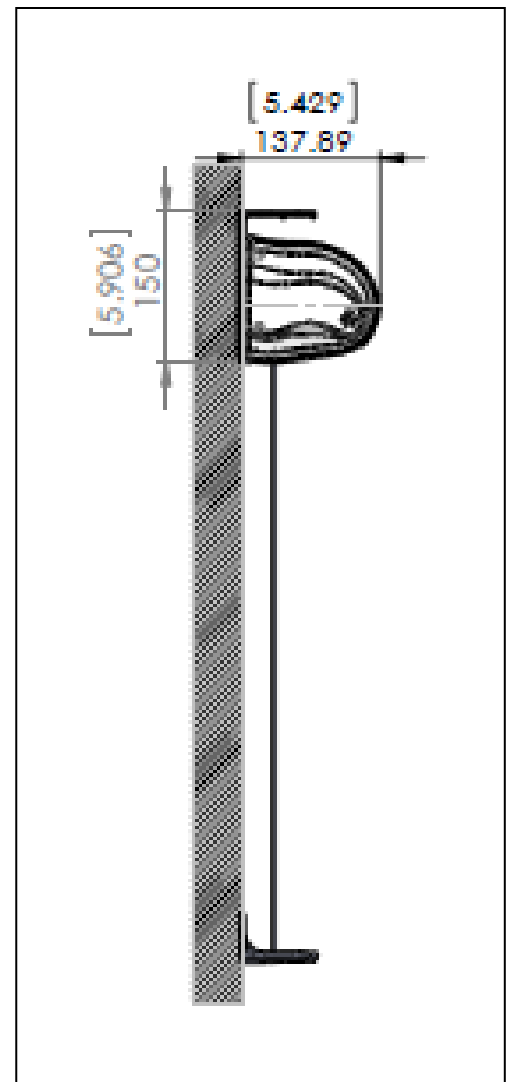

FABRIC:

Rec-screen 5000P stock colors only.
