

The louvered PERGOLA® can be mounted to most walls and decks. The system can also be constructed as a free standing system on your deck or concrete pad. The systems are custom made to fit your space. Our louvered systems are covered by six (6) Pratic patents, including water management within the gutter system and downspouts hidden within the posts. For greater perimeter protection, the OPERA and BRERA models can be configured with retractable motorized RASO zipper screens integrated within the beam system. Both models are available with optional RGB LED multi colored lighting, offering a fascinating elegant remote controlled lighting option (White lights included). Our adjustable louvered roof is a solid made to measure structure that can reach large sizes up to (16'5" wide x 22'11" projection) depending on model. Coupling of multiple structures to make even larger sizes possible with shared posts.

Since 1880 Sunair® has been protecting you from the sun and rain.

Now, we offer you the opportunity and the satisfaction of creating something unique.

A reflection of your personal style.

Our OPERA & VISION models adjustable louvered roof with a touch of the remote button, louvers can be positioned anywhere within their 140-degree range of motion for the exact amount of sun protection or ventilation desired. For rain protection close the louvers and the rain will be diverted through the integrated gutter system. Once the rain ends, the louvers move at your complete command to allow for more shade or sunshine. Our BRERA model also allows the louvers to adjust to the sun angle. The BRERA louvers are also movable and fully retractable for an open air al fresco dining experience.

Our adjustable motorized louvered PERGOLA® structures are perfect for small to larger spaces, including restaurant cafés and backyard patio spaces. The louvered system PERGOLA® is available in three models to best fit your needs and are custom made to fit your space. They provide you with an alternative unique level of control over nature, combining style and function to create and enhance your outdoor living space.
